

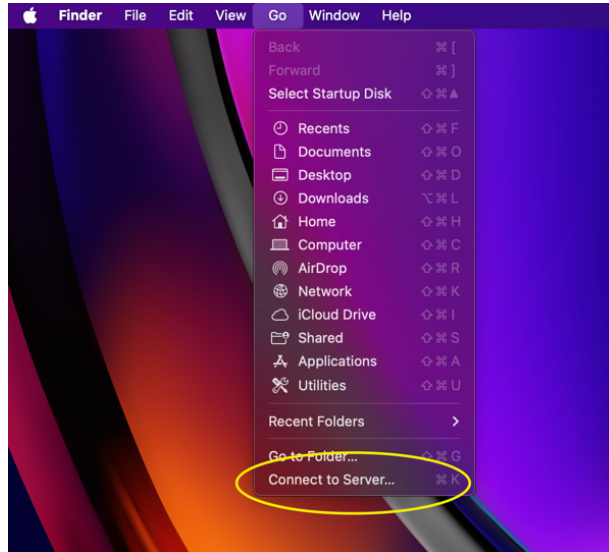

Mapping to Shared Server on MacOS

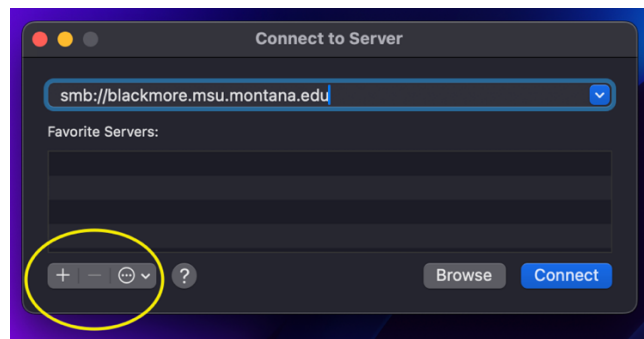

Please make sure your apple device is on **Secure-WiFi or Wired Network**

Command + K

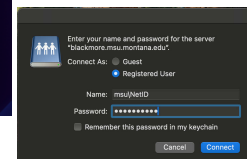

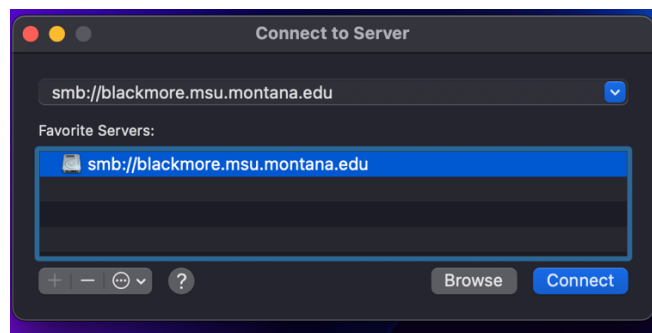

Or navigate to **Go** on your desktop and select **Connect to Server**

Type in the Server Address starting with **smb://**
smb://blackmore.msu.montana.edu

After adding the server select **Connect**

After selecting **Connect** you will be asked to sign in **msu\NetID & Password**.
