Acknowledgements

We wish to express our sincere appreciation to New Mexico State University (NMSU) for the opportunity to participate in the 2016 Space Benchmarking endeavor. The process of creating this Comparative Analysis has been thorough and inclusive, drawing from the insights, the expertise, and the vision of multiple departments at peer universities across the central and western United States.

We also extend our thanks to each New Mexico State University administrator and representative who actively participated and assisted with data collection and review, and provided both specific information and insight to our fact finding process. Their time commitment and contributions were instrumental to the value of this project.

Finally, this study is a success because of the timely and accurate information provided by each peer institution. The individuals at these select universities worked diligently to provide our programming team with the space and enrollment information that was critical for defined comparisons. Their contribution will empower New Mexico State University to make solid, well-informed decisions.

Contributors

New Mexico State University

- Glen Haubold, Associate Vice President for Facilities
- Heather Zack Watenpugh, AIA, University Architect and Campus Planning Officer
- Suzanne M. Montes, Facilities Space Manager
- Judy Bosland, Assistant Vice President for Institutional Analysis

Colorado State University

- Kristi D. Buffington, Mapping, Space, and Data Information Systems

Iowa State University

- Margie Tabor, Assistant Director for Space Planning and Management
- Kelly Nelson, Space Information Coordinator

Kansas State University

- Ryan F. Swanson, AIA, AUA, LEED AP, Division of Facilities
- Heather Mills, NCIDQ, Assistant Director of Campus Planning & Space Management
- Alma Deutsch, Director, Resource Center and Operations, Division of Human Capital Services
- Roger Eaton, Technical Support Consultant, Office of Registrar

- Kerry McDonald, Administrative Assistant, Division of Facilities

Montana State University

- Christina Fastnow, Ph.D., Director, Office of Planning and Analysis
- Victoria Drummond, Associate University Planner, AICP, LEED AP, CEFP, Mapping, Space, and Data Information Systems
- Rebecca Belou, M.P.A., Research Analyst
- Matthew Hume, Campus Planning, Design and Construction

Oklahoma State University

- Christie Hawkins, Ph.D., Associate Vice President for Administration and Finance, Director of Institutional Research and Information Management
- Adrian Self, Director of Facilities
- Rick S. Krysiak Jr., P.E., LEED Green Associate, Director, Facilities Management and Chief Facilities Officer
- Ron Tarbutton, Director, Operations and Maintenance
- Lynn Hazelbaker, Manager, Geospatial Systems

Texas Tech University

- Brandon Hennington, Director for Planning and Administration
- Laina Lang, Lead Analyst for Planning and Administration
- Jake Keas, BIMAR Unit Manager, Operations Division | Planning and Administration

The University of Texas at El Paso

- Gregory L. McNicol, AIA, Associate Vice President, Facilities Management
- Chris Mandell, Manager, Space Information Resources
- Alonso Enriquez, Drafting Technician, Space Information Resources
- Sheila Awalt, Assistant to the AVP, Facilities Management

University of Arizona

- Peter Dourlein, AIA, LEED AP, Assistant Vice President, Planning, Design and Construction
- Rodney Lane Mackey, AIA, Associate Director, Planning and Public Private Partnerships, Planning, Design and Construction

University of Nevada, Reno

- Denise Baclawski, Senior Director Planning and Construction Services
- Jed Hammer, Senior Planner, Facilities Planning and Construction

University of New Mexico

- Stacy Kaneshige, Data Manager, Space Management, Physical Plant Department
- Lisa Marbury, Executive Director Institutional Support Services
- Heather Mechler, Associate Director, Office of Institutional Analytics

Utah State University

- Charles Darnell, Associate Vice President for Facilities
- Jeff Turley, CADD System Manager, Facilities Planning, Design and Construction
- Rob Reeder, Facilities Maintenance and Landscape Operations and Maintenance Director
- Kyle Hyde, Assistant Director, Analysis, Assessment and Accreditation
- Jessica Hansen, AIS Academic Scheduling

Washington State University

- Olivia Yang, Associate Vice President for Facilities Services
- Don Hulst, Director, Facility Information Resource Management, Space Management, Campus Planning, GIS, and Archives
- Craig Boersema, Space Allocation Specialist, Facilities Services

Project Background

In an effort to provide their students with the best educational opportunities and facilities, and to make informed decisions in their upcoming master planning process, New Mexico State University (NMSU) engaged Huitt-Zollars, in conjunction with Facility Programming and Consulting, to complete this Comparative Analysis, Space Benchmarking with Peer Universities. Together this team of architects and specialists used their breadth of higher education experience to help NMSU make critical space decisions as they move forward with their innovative plans for the future.

This document is organized into the following sections:

Project Background

What is a Land Grant University?

New Mexico State University is a major public, land-grant, research university in Las Cruces, New Mexico. A land-grant university is an institution of higher education in the United States designated by a state to receive the benefits of the Morrill Acts of 1862 and 1890.

The Morrill Acts funded educational institutions by granting federally controlled land to the states for them to sell to raise funds to establish and endow land-grant colleges. The mission of these institutions as set forth in the 1862 Act is to focus on the teaching of practical agriculture, science, military science and engineering, without excluding classical studies.

Selection of Peer Universities

The following peers were identified by New Mexico State University due to their land grant status and other attributes that make for a valuable comparison. Most of the peer institutions had colleges that are not identical to New Mexico State University, but are similar enough for comparison. In some instances, colleges at a peer university were combined for comparison. Such assumptions have been documented on the comparison pages.

Below is a list of peers and their corresponding related colleges:

■ Colorado State University

- College of Agricultural Sciences
- College of Business
- College of Engineering
- College of Health and Human Sciences
- College of Liberal Arts
- College of Natural Resources
- College of Natural Sciences
- College of Veterinary Medicine and Biomedical Sciences

■ Iowa State University

- College of Agriculture and Life Sciences
- College of Business
- College of Design
- College of Engineering
- College of Human Sciences
- College of Liberal Arts and Sciences
- College of Veterinary Medicine

■ Kansas State University

- College of Agriculture
- College of Architecture, Planning and Design
- College of Arts and Sciences
- College of Business Administration
- College of Education
- College of Engineering
- College of Human Ecology
- College of Technology and Aviation
- College of Veterinary Medicine

■ Montana State University

- College of Agriculture
- College of Arts and Architecture
- College of Business
- College of Education, Health and Human Development
- College of Engineering
- College of Letters and Science
- College of Nursing
- Gallatin College (Workforce, Continuing Education)

■ New Mexico State University

- College of Agricultural, Consumer and Environmental Sciences
- College of Arts and Sciences
- College of Business
- College of Education
- College of Engineering
- College of Health and Social Services

■ Oklahoma State University

- College of Agricultural Sciences and Natural Resources
- College of Arts and Sciences
- College of Education
- College of Engineering, Architecture and Technology
- College of Human Sciences
- Spears School of Business
- Center for Veterinary Health Sciences
- College of Osteopathic Medicine

■ Texas Tech University

- College of Agricultural Sciences & Natural Resources
- College of Architecture
- College of Arts and Sciences
- Jerry S. Rawls College of Business Administration
- College of Education
- Edward E. Whitacre Jr. College of Engineering
- College of Human Sciences
- College of Media and Communication
- College of Visual and Performing Arts
- School of Law

■ University of Arizona

- College of Agriculture and Life Sciences
- College of Architecture, Planning and Landscape Architecture
- College of Education
- College of Engineering
- College of Fine Arts
- College of Humanities
- College of Nursing
- College of Optical Sciences
- College of Pharmacy
- College of Science
- College of Social and Behavioral Sciences
- Colleges of Letters, Arts and Science
- Eller College of Management
- James E. Rogers College of Law
- Mel & Enid Zuckerman College of Public Health
- Outreach College (Workforce, Continuing Education)

■ University of Nevada, Reno

- College of Agriculture, Biotechnology and Natural Resources
- College of Business
- College of Education
- College of Engineering
- College of Liberal Arts
- College of Science
- Division of Health Sciences
- The Reynolds School of Journalism

▪ **University of New Mexico**

- Anderson School of Management
- College of Arts & Sciences
- College of Education
- College of Fine Arts
- College of Nursing
- College of Pharmacy
- College of University Libraries and Learning Sciences
- School of Architecture and Planning
- School of Engineering
- School of Law
- School of Medicine
- School of Public Administration
- University College

▪ **University of Texas at El Paso**

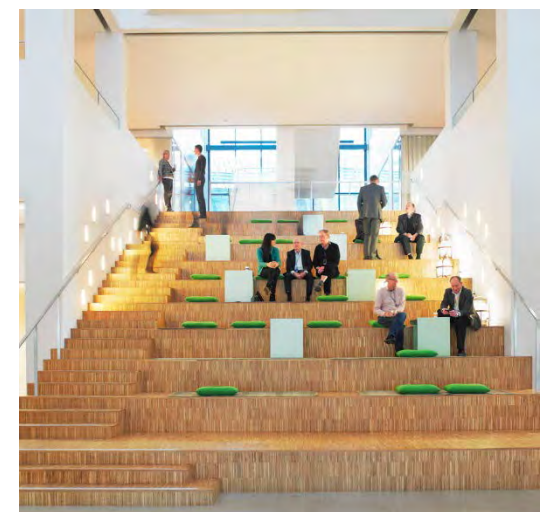

- Army/ROTC
- College of Business Administration
- College of Education
- College of Engineering
- College of Health Sciences
- College of Liberal Arts
- School of Nursing
- College of Science

▪ **Utah State University**

- Caine College of the Arts
- College of Agriculture and Applied Sciences
- College of Engineering
- College of Humanities and Social Sciences
- College of Science
- Emma Eccles Jones College of Education and Human Services
- Jon M. Huntsman School of Business
- S.J. & Jessie E. Quinney College of Natural Resources

▪ **Washington State University**

- College of Agricultural, Human, and Natural Resource Sciences
- College of Arts and Sciences
- College of Business
- College of Communication
- College of Education
- College of Engineering and Architecture
- College of Nursing
- College of Pharmacy
- College of Medical Sciences
- College of Veterinary Medicine

Project Background

New Mexico State University Colleges

Below is a list of the colleges and their corresponding schools and programs that New Mexico State University offered in Fall 2015. Throughout the study, the consultants made every attempt to allocate peer spaces to best fit in the following NMSU areas of study.

College of Agricultural, Consumer and Environmental Sciences

- Agricultural and Extension Education
- Agricultural Economics and Agricultural Business
- Animal and Range Science
- Entomology, Plant Pathology and Weed Science
- Family and Consumer Sciences
- Fish, Wildlife and Conservation
- Plant and Environmental
- School of Hotel, Restaurant and Tourism Management

College of Arts and Sciences

- AFROTC
- Anthropology
- Art
- Astronomy
- Biology
- Chemistry and Biochemistry
- Communication Studies
- Computer Science
- Creative Media Institute
- Criminal Justice
- English
- Geography
- Geological Sciences
- Government
- History
- Interdisciplinary Studies Department
- Journalism and Mass Communications
- Languages and Linguistics
- Mathematical Sciences
- Molecular Biology
- Music
- Philosophy
- Physics
- Psychology

- Sociology
- Theatre Arts

College of Business

- Accounting
- Economics
- Finance
- General Business
- Information Systems
- International Business
- Management
- Marketing
 - PGA Golf Management

College of Education

- Counseling & Educational Psychology
- Curriculum & Instruction
- Educational Leadership & Administration
- Kinesiology & Dance
 - Athletic Training
 - Dance
 - Kinesiology
 - Physical Education
- Special Education
- Communication Disorders

College of Engineering

- Chemical and Materials Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Engineering Physics
- Engineering Technology and Surveying Engineering
- Industrial Engineering
- Mechanical and Aerospace Engineering

College of Health and Social Services

- School of Nursing
- School of Social Work
- Department of Public Health Sciences

On each campus, considerable space is not assigned to a particular college. For the purpose of this study, these spaces were categorized according to the following classifications. Residential space was excluded.

- Library Space
- General & Administrative Space
 - Auxiliary Services
 - President, Vice President and Provost
 - Facilities and Services
 - Administration and Finance
 - Student Affairs and Enrollment Management
 - Student Union Spaces
 - Shared Information Technology (IT) and Communication Services
- Athletic Space
 - Intramural Sports
 - Collegiate Sports
 - Recreation (Rec) Centers
 - Supporting Athletic Offices

Refer to the Methodology section for additional information.

Methodology

2

Methodology

After the initial data gathering workshop in March 2016, letters were distributed to sixteen (16) identified peer universities requesting space data, faculty counts, and enrollment statistics. There are thirteen (13) total schools included in this final report; New Mexico State University and twelve (12) identified peers.

Specific data requested included:

- Fall 2015 total headcount and headcount by college
- Fall 2015 total student full-time equivalent (FTE) and student full-time equivalent (FTE) by college
- Fall 2015 total faculty headcount and faculty headcount by college
- Fall 2015 total full-time faculty and full-time faculty by college
- Fall 2015 assignable square feet for each college, by FICM code (Facilities Inventory and Classification Manual, National Center for Education Statistics)
- Fall 2015 assignable square feet for campus shared spaces (General and Administrative, University Library, and Athletics), by FICM code

Data was requested for the main campus of each university. Any satellite campuses or affiliated community college spaces were excluded. Additionally, any residential spaces or space that is currently offline was omitted prior to calculations.

Data was subsequently sorted and filtered to consistently address general and administrative, library, and athletic spaces. In cases where the colleges at a peer institution did not fully align with NMSU colleges, footnotes have been added to explain assumptions made by the consultants.

The information used for this benchmarking study was taken directly from responses provided by each individual peer institution. It is expected that each contributor may have recorded and classified their space data differently with regards to their identification of spaces within their institution. The consultants have attempted to address any inconsistencies in these data to make the report more useful. In many instances, calculations and assumptions were made to accommodate these differences.

The consultant re-contacted the peer institutions when data seemed “out of range” to confirm accuracy of the assumptions and calculations.

Assumptions

In an effort to streamline the data and to make the comparisons to peers more usable, the consultants made several assumptions throughout the data gathering and sorting process. Every effort has been made to make an “apples-to-apples” comparison. However, because each peer accounts for their spaces differently, discrepancies and some variance are likely to exist in the data. A list of these assumptions is included in the findings section of the report.

All square foot (sq. ft.) calculations are based on assignable square feet (ASF) and calculations are figured using the Full Time Equivalent Student (Student FTE) and Full Time Faculty (FT faculty) numbers. Student headcounts were provided by some institutions and are included for comparison purposes only.

Exclusions and Limitations

Every effort was made to match peer space data categories with applicable NMSU colleges, when possible. However, some of the colleges at the peer institutions did not lend themselves to a direct comparison. In those cases, the data were excluded from the analysis. Examples where peer data was excluded include college of architecture, college of veterinary medicine, etc.

Some peers were only able to provide current space data instead of Fall 2015 space data. In those cases, 2016 data were used. These cases are explained later in Section 3, Summary Findings.

Some peers provided a comprehensive list of all spaces included on their campus. Others chose to provide the space codes exclusively for each college and department and shared spaces were not submitted. When provided, calculations for shared and administrative spaces have been displayed.

Community college spaces, residential spaces, non-assignable spaces, and spaces outside of the main campus have been excluded from this study.

Centralized Classrooms

Each institution allocates their classroom space differently. Many have classroom space assigned to the colleges and schools they serve. Some have assigned spaces as well as centralized classrooms. Others have only centrally scheduled classrooms.

For the two Texas peers, the Texas Higher Education Coordinating Board (THECB) mandates that classrooms are not assigned to an organizational code and are therefore not tied to any college. (All higher

education institutions in Texas must abide by this policy). For this reason, you will see only centralized classrooms for the Texas peers.

Shared Spaces

Several of the peer schools provided information for campus-wide spaces such as general and administrative, library, and athletics. When available, data was compiled for comparison purposes. When provided, the consultant made every effort to show relevant calculations and comparisons between peers.

- General and Administrative
- University Library
- Athletics

General and Administrative (G&A)

The general and administrative comparison includes spaces used to support the university on a day-to-day basis. Categories encompassed in this section include, (but are not limited to):

- Auxiliary Services
- President, Vice President and Provost Offices
- Facilities and Services
- Student Affairs and Enrollment Services
- Administration and Finance

University Library

The library category includes all spaces within the library which report to the library system. Library spaces can vary significantly from campus to campus. Caution should be used when interpreting the results of library space comparisons.

Athletics

The athletics category includes all spaces within the athletics department, including physical education and recreation facilities where available. These spaces can vary significantly from campus to campus depending on the number of sports offered and the level of competition. Caution should be used when interpreting the results of athletics space comparisons.

Residential

Residential spaces were not included in this comparison. Where college data included residential spaces (FICM codes in the 900's), data was excluded prior to calculations and comparisons.

Methodology

Definitions

The following terms and acronyms are used throughout this study:

- **Headcount** refers to the total number of students on campus during the reported semester. Students are counted once in each term they register. Headcount enrollment is the number of individuals who have paid fees and enrolled in classes. It does not distinguish between full and part-time students.
- **Student FTE (FTE)** is a measure of instructional workload used for state budgeting, facilities planning, and local resource allocation decisions. FTE can be either an estimate of instructional workload, or an exact equivalent of measured student credit hours in a previous term or academic year. Some schools refer to this as FTSE.
 - For the purpose of this study, when not provided by the university, FTE was calculated by summing the total undergraduate student credit hours divided by 15 and the total graduate student credit hours divided by 12.
- **Full Time Faculty** typically includes any faculty teaching 12 or more workload units, which vary per type of course. Full-time faculty usually have health insurance and other benefits, as well as higher salaries. It is common for universities to quantify this information differently.
- **Net Assignable Square Feet (NASF or ASF)** refers to the sum of all areas on all floors of a building assigned to, or available for assignment to, an occupant or specific use. Net assignable area is computed by physically measuring or scaling measurements from the inside faces of surfaces that form the boundaries of the designated areas. It is the sum of areas designated by the 10 assignable major space use categories (FICM Codes).
- **Facilities Inventory and Classification Manual Codes (FICM Codes)**, also known as space use codes, represent the recommended central or core concepts for classifying the assignable space, by use, within campus facilities.
 - For the purposes of this study, we used FICM codes exactly as they were provided by the peers. The consultants did not exercise any judgement with regard to the previously assigned classifications.
 - A list of FICM codes can be found on the following page. Refer to the National Center for Education Statistics for more information.

FICM Codes Included in this Study

100 Classroom Facilities

- 110 Classroom
- 115 Classroom Service

200 Laboratory Facilities

- 210 Class Laboratory
- 215 Class Laboratory Service
- 220 Open Laboratory
- 225 Open Laboratory Service
- 250 Research/Non-classified Laboratory
- 255 Research/Non-classified Laboratory Service

300 Office Facilities

- 310 Office
- 315 Office Service
- 350 Conference Room
- 355 Conference Room Service

400 Study Facilities

- 410 Study Room
- 420 Stack
- 430 Open-Stack Study Room
- 440 Processing Room
- 455 Study Service

500 Special Use Facilities

- 510 Armory
- 515 Armory Service
- 520 Athletic or Physical Education
- 523 Athletic Facilities Spectator Seating
- 525 Athletic or Physical Education Service
- 530 Media Production
- 535 Media Production Service
- 540 Clinic
- 545 Clinic Service
- 550 Demonstration
- 555 Demonstration Service
- 560 Field Building
- 570-575 Animal Facilities/Animal Facilities Service
- 580 Greenhouse
- 585 Greenhouse Service

- 590 Other (All Purpose)

600 General Use Facilities

- 610 Assembly
- 615 Assembly Service
- 620 Exhibition
- 625 Exhibition Service
- 630 Food Facility
- 635 Food Facility Service
- 640 Day Care
- 645 Day Care Service
- 650 Lounge
- 655 Lounge Service
- 660 Merchandising
- 665 Merchandising Service
- 670 Recreation
- 675 Recreation Service
- 680 Meeting Room
- 685 Meeting Room Service

700 Support Facilities

- 710 Central Computer or Telecommunications
- 715 Central Computer or Telecommunications Service
- 720 Shop
- 725 Shop Service
- 730 Central Storage
- 735 Central Storage Service
- 740 Vehicle Storage
- 745 Vehicle Storage Service
- 750 Central Service
- 755 Central Service Support
- 760 Hazardous Materials Storage
- 770 Hazardous Waste Storage
- 775 Hazardous Waste Service
- 780 Unit Storage

800 Health Care Facilities

- 810 Patient Bedroom
- 815 Patient Bedroom Service
- 820 Patient Bath
- 830 Nurse Station
- 835 Nurse Station Service

- 840-845 Surgery/ Surgery Service
- 850-855 Treatment/Examination Clinic/ Service
- 855 Treatment/Examination Clinic Service
- 860-865 Diagnostic Service Laboratory/ Support
- 870 Central Supplies
- 880 Public Waiting
- 890 Staff On-Call Facility
- 895 Staff On-Call Facility Service

Spaces Excluded from this Study

900 Residential Facilities

- 910 Sleep/Study Without Toilet or Bath
- 919 Toilet or Bath
- 920 Sleep/Study With Toilet or Bath
- 935 Sleep/Study Service
- 950-955 Apartment/ Apartment Service
- 970 House

000 Unclassified Facilities

- 050 Inactive Area
- 060 Alteration or Conversion Area
- 070 Unfinished Area

Non Assignable Ares

- WWW Circulation Area
- W01 Bridge/Tunnel
- W02 Elevator
- W03 Escalator
- W04 Loading Dock
- W05 Lobby
- W06 Public Corridor
- W07 Stairway
- XXX Building Service Area

Summary Findings

3

Summary Findings

On the following pages you will find a series of charts and graphs illustrating various space comparisons from this study.

The data is presented in the following order:

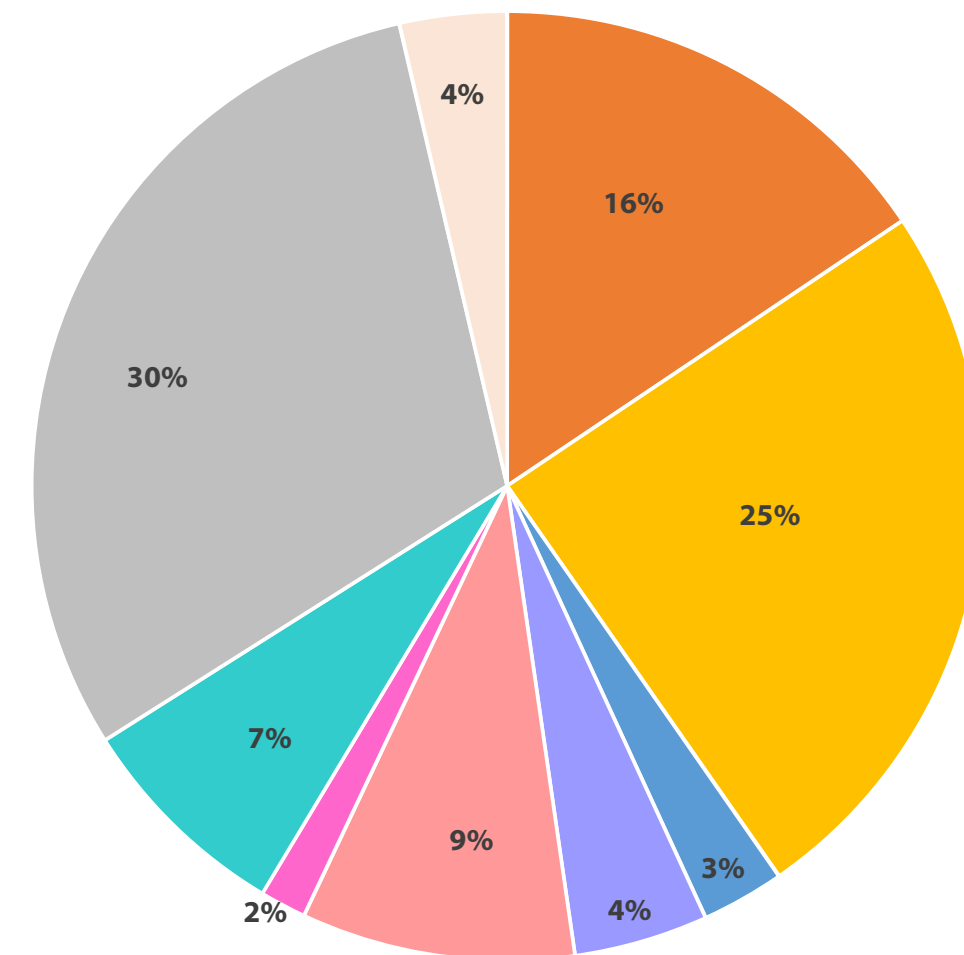

- NMSU Total ASF by College
- NMSU Campus Map
- NMSU Total ASF by Building and College
- List of Exceptions
- ASF per Student FTE
- ASF per FT Faculty
- ASF per Student FTE by College
- Campus Total ASF by FICM Code
- Campus Total ASF per Student FTE by FICM Code
- NMSU Campus Total ASF per Student FTE as Compared to Peer Average and Peer Median, sorted by FICM
- NMSU Campus Total ASF per FT Faculty as Compared to Peer Average and Peer Median, sorted by FICM
- NMSU ASF per Student FTE as Compared to Peer Average and Peer Median, sorted by College
- NMSU ASF per FT Faculty as Compared to Peer Average and Peer Median, sorted by College
- NMSU Total Space by FICM Code
- NMSU ASF by FICM Code by College

Detailed findings follow in Section 4.

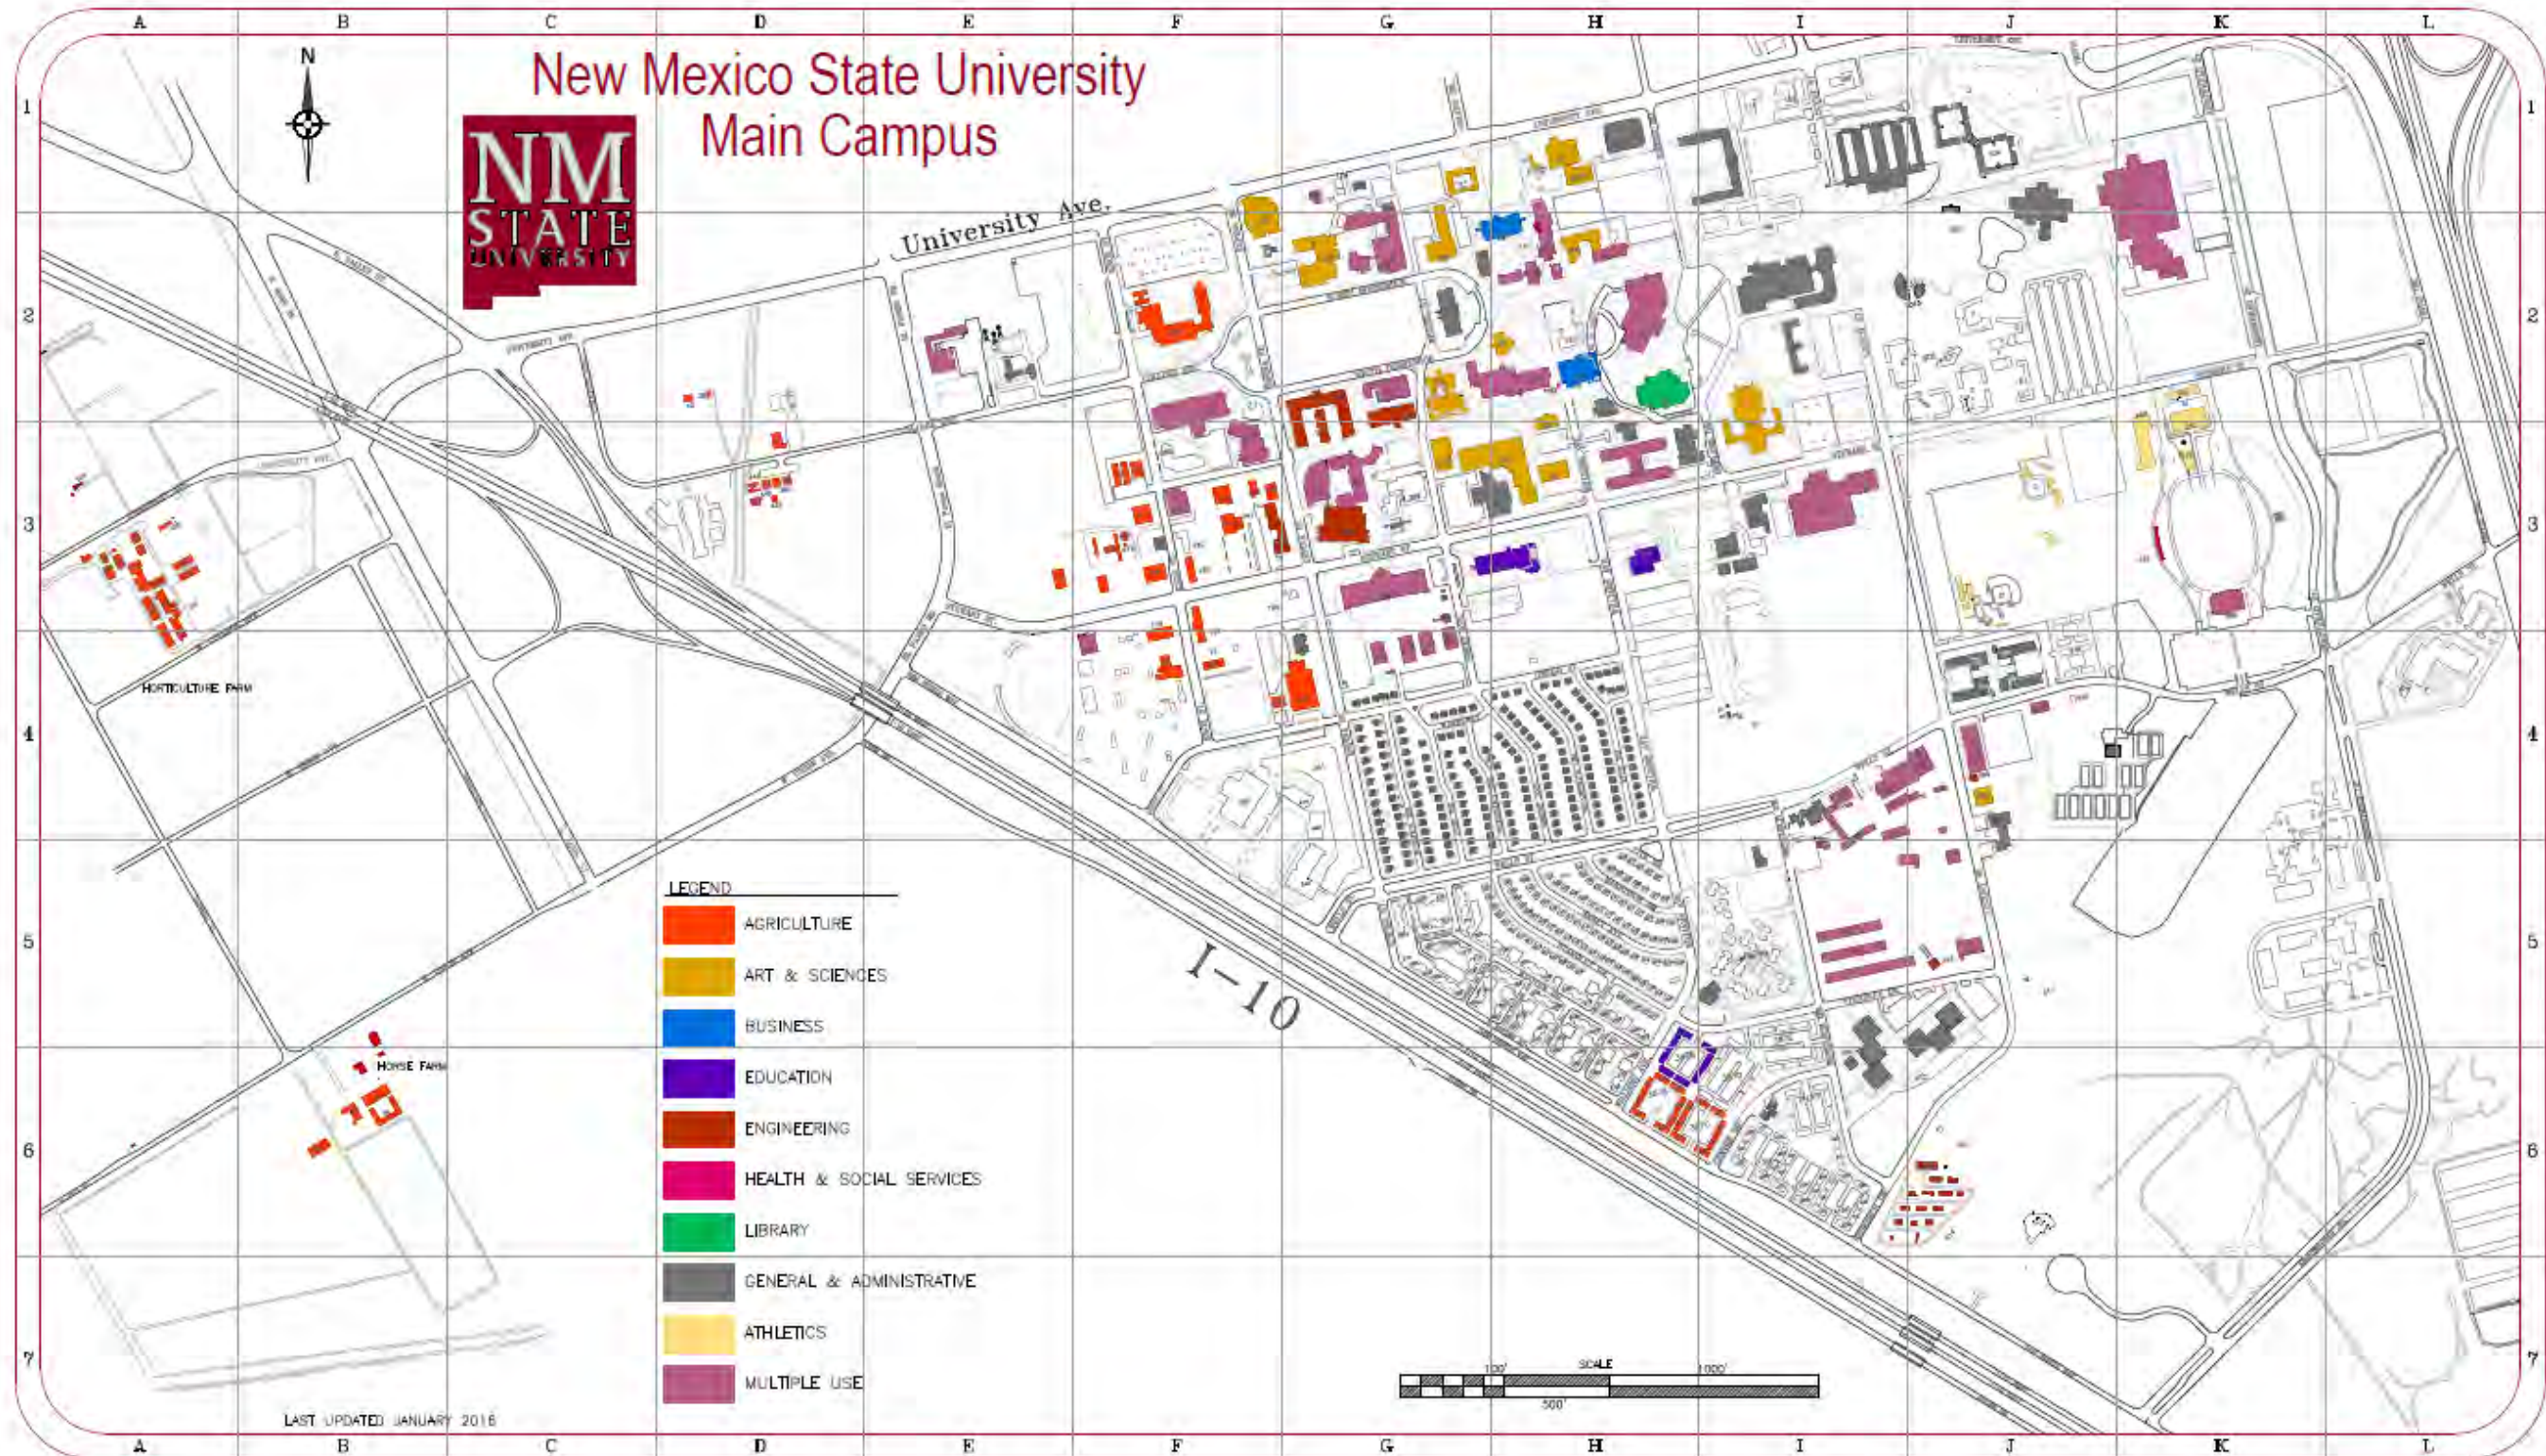

NMSU Total ASF by College

- Agricultural, Consumer and Environmental Sciences
- Arts and Sciences
- Business
- Education
- Engineering
- Health and Social Services
- Campus Library
- General & Administrative
- Athletics

This pie chart illustrates how space is currently allocated at New Mexico State University.

Summary Findings

NMSU ASF by Building and College

These pages show the allocation of space for each college across each of the buildings on the NMSU main campus. All totals are in square feet. Yellow indicates the building was not located on map provided.

BLDG #	BUILDING NAME	AGRICULTURE	ART & SCIENCES	BUSINESS	EDUCATION	ENGINEERING	HEALTH AND SS	LIBRARY	G & A	ATHLETICS	TOTAL SF

Summary Findings

List of Exceptions

The following is a list of exceptions to the data presented in this report. The number of exceptions illustrate how the consultants filtered the data to obtain the best possible comparison.

General

- Several peers have a College of Letters and Science, a College of Leadership Studies, and/or a College of Library Science. These spaces were included with the data for the Arts and Sciences programs for a more accurate comparison with NMSU.
- Total university student headcounts and student FTE counts include undergraduate, graduate, professional, Ph.D. and post doctorate students (where applicable) for all colleges and departments on campus.
 - Student enrollments count only students who are certified majors, which typically occurs half-way through a student's undergraduate program. Therefore, headcount and FTE by college may not equal the campus totals.
- Total faculty headcounts include all academic faculty (regardless of funding source and location), all letters of appointment (adjunct faculty) and post-doctoral scholars as provided by the peers.
- Total FT Faculty counts usually include only full-time academic faculty paid at least partly from instructional funding. However, no attempt was made by the consultants to verify the source of these counts.
- The Texas Higher Education Coordinating Board (THECB) mandates that all Texas universities have centralized classrooms. For the purposes of this study, this applies to Texas Tech University and the University of Texas at El Paso.
- IT spaces are listed under the general & administrative category.
- Student Union spaces are listed under general & administrative category.
- In most cases, faculty headcount and FT faculty numbers include tenured, tenure eligible, and non-tenure eligible faculty.
- Student FTE for the College of Arts & Sciences is sometimes greater than total student headcount because the college has been sorted to include general education classes such as English 101.

Colorado State University

- CSU College of Health and Social Services includes spaces for their department of Education. For this reason, there are no spaces listed on this page. As a result, their space data for the College of Health and Social Services will be overstated.

- CSU intra-university and 781,803 ASF of Veterinary Medicine is included on the campus totals page, but excluded from any particular college breakdown.

Iowa State University

- ISU space data is a snapshot of current data, not Fall 2015 data. Some variance is expected.
- ISU College of Design includes Architecture, Landscape Architecture, Art and Visual Culture, Graphic Design, Interior Design, Community and Regional Planning, and Industrial Design. In an attempt to make the data most relevant to NMSU, the ISU College of Design has been excluded from the study. As a result, the data for the ISU College of Arts & Sciences is understated as compared to the other peers.
- The ISU College of Human Sciences includes Kinesiology, Early Childhood Education, Food Science, Hospitality, and Premedical programs. Because there was no way to accurately separate and report the data for the College of Education, ISU has chosen to exclude their data from this section of the study.
- ISU's athletic space includes information for the athletic department only. Space for recreation services is categorized under the Vice President for Student Affairs, and is reflected on the General and Administrative page.
- ISU College of Veterinary Medicine (389,353 ASF) and College of Design (135,217 ASF) is included on the campus totals page, but excluded from any particular college breakdown.

Kansas State

- Athletics space is listed under President's office and library space is listed under Provost Office. Due to the nature of the data, the consultants were unable to accurately separate these spaces. Therefore G&A will be significantly overstated and no data is shown on the Library or Athletics' specific pages.
- The communication and marketing programs share spaces. For the purposes of this comparison, these spaces are listed under College of Arts and Sciences. As a result, space for the College Arts and Sciences will be overstated and College of Business will be understated.
- K-State College of Human Ecology includes the following departments: Apparel, Textiles, & Interior Design; Hospitality Management; Food, Nutrition, Dietetics and Health; Kinesiology; Family Studies & Human Services; Gerontology; Family & Consumer Sciences Education; General Human Ecology Studies. These spaces have been listed as Health & Social Services, but there is no true comparison to NMSU for these spaces.

- College of Architecture, Planning and Design (57,855 ASF), College of Veterinary Medicine (260,695 ASF) and Graduate School (54,994 ASF) is included on the campus totals page, but excluded from any particular college breakdown.

Montana State University

- Montana State Department of Microbiology and Immunology crosses between two Colleges: Agriculture and Letters (filtered in to Arts and Sciences). Therefore, some variance between student and faculty counts should be expected.
- The Montana Agricultural Experiment Station (MAES) has spaces both on and off the MSU campus. For the purposes of this study, any research centers or sites disbursed across the state and not directly adjoined to the core of MSU have been excluded. This decision was made in an effort to maintain consistency with the data provided by NMSU. Excluded spaces for MAES total 380,000 GSF, 220,000 ASF estimated based on 60% assignable. A significant percentage of these excluded spaces include farm structures such as pole barns and sheds.
- In order to make the comparison more applicable to NMSU, programs such as KUSM, MilTech and Montana Department of Transportation have also been excluded from this data.
- College of Architecture (37,799 ASF) is included on the campus totals page, but excluded from any particular college breakdown.
- MSU offers central/shared classrooms (86,078 ASF).

New Mexico State University

- NMSU Reported Student FTE campus totals include Library Science, Graduate and UNIV categories (268 students). The adjusted Student FTE excludes these categories.

Oklahoma State University

- OSU space data is a snapshot of current data, and not Fall 2015 data. Some variance is expected.
- OSU College of Engineering also includes space data for the Architecture and Technology programs. As a result, ASF for the College of Engineering will be overstated.
- OSU Center for Veterinary Health Sciences (281,871 ASF) is included on the campus totals page only.

Texas Tech University

- TTU School of Nursing is housed at the Texas Tech University Health Science Center (TTUHSC). Because TTUHSC is not part of the main campus, the nursing program is excluded from the campus total numbers. Additionally, the Health & Social Services data will be understated.

- TTU campus faculty totals include architecture professors. Because NMSU does not have a College of Architecture, every effort was made to exclude related architectural spaces. As a result, the sum of the faculty by college will not equal the faculty on the campus totals page.
- TTU Biological and Biomedical Science program has been included with the Arts and Sciences data.
- TTU School of Law (91,949 ASF) and College of Architecture (96,377 ASF) are included on the campus totals page, but excluded from any particular college breakdown.
- TTU offers central/shared classrooms (253,755 ASF).

University of Arizona

- U of A College of Pharmacy (74,409 ASF), and College of Public Health (46,626 ASF) are included in the Health & Social Sciences category.
- U of A College of Optical Sciences (79,902 ASF) is included in the College of Arts & Sciences for a more relevant comparison to NMSU.
- Space data for the U of A College of Law (98,594 ASF), College of Medicine (501,000 ASF), and College of Architecture (70,114 ASF) is included in the campus totals only.

University of Nevada, Reno

- The campus total page shows a variance of 241,545 ASF from the sum of the campus spaces that can be attributed directly to the Chancellor's Office space, Office of Real Estate space, and administrative spaces not provided by FICM code.
- UNR School of Medicine (417,266 ASF), Extended Studies (87,222 ASF) and Graduate Program (2,910 ASF) are included on the campus totals page, but excluded from any particular college breakdown.
- UNR offers central/shared classrooms (158,904 ASF).

University of New Mexico

- UNM space data is a snapshot of current data, and not Fall 2015 data. Some variance is expected.
- UNM College of Pharmacy, Medical Programs (excluding Medical School students) and Public Administration are included in the Health & Social Sciences category.
- FT faculty counts and faculty headcounts for the College of Health and Social Services are overstated because the counts include all professors associated with the School of Medicine.

- Total student credit hours by college were provided, so calculations were made (as detailed in the Definitions section of chapter two) by the consultants to estimate student FTE.
- UNM does not offer a College of Agriculture.
- UNM Hospitals fall under the Health Sciences Center, consisting of the College of Pharmacy, College of Nursing and School of Medicine, as well as the corresponding administrative units. The Hospital is run separately, but some of the spaces fall under the HSC. These spaces are shared programmatically, financially and/or educationally.
- UNM School of Architecture and Planning (55,309 ASF), School of Law (108,914 SF) and School of Medicine (731,336 ASF) are included on the campus totals page, but excluded from any particular college breakdown.

The University of Texas at El Paso

- UTEP does not offer a College of Agriculture.
- UTEP offers central/shared classrooms (148,632 ASF).

Utah State University

- USU College of Education includes College of Human Services as well as the psychology program. As a result, the data is duplicated on the College of Education and the College of Health & Social Services pages. Additionally, the data for the College of Arts and Sciences will be understated as it will not include Psychology programs.
- USU offers central/shared classrooms (86,523 ASF).
- USU Veterinary Medicine (43,798 ASF) are included on the Campus totals page, but excluded from any particular college breakdown. Additionally, 24,758 ASF of a building that was offline and demolished in 2016 has also been excluded.

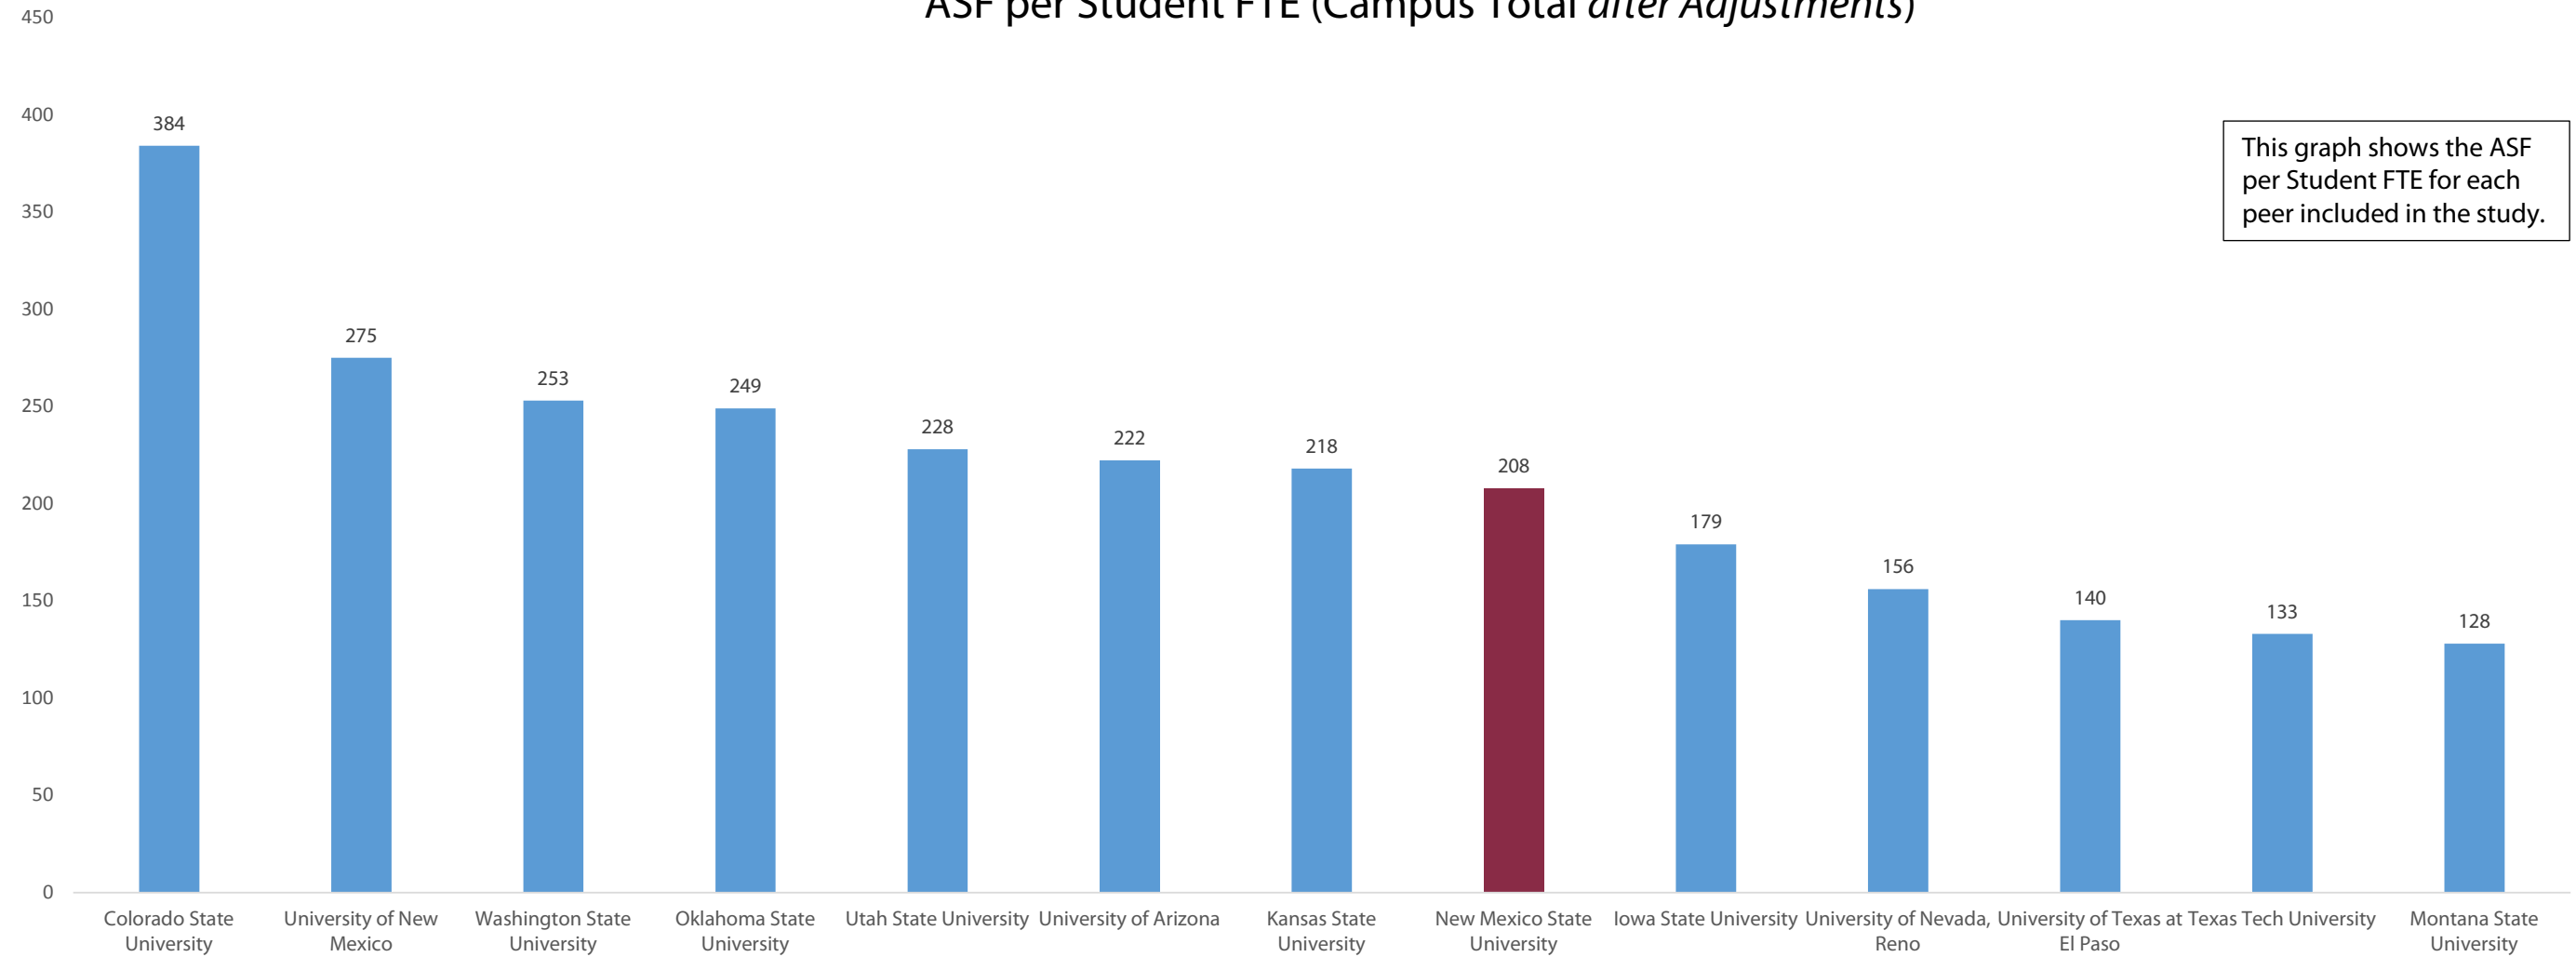

Washington State University

- WSU Architecture and Engineering departments fall under the same college. A complete room list was provided for this college, so the consulting team was able to successfully separate the two departments. For the purpose of comparison to NMSU, the Architecture spaces were included in the total campus space only.
- WSU faculty and student numbers were provided based on their college allocation. The consultant was able to sort space data to match NMSU programs, but faculty/student data was not adjusted due to restrictions within the data. Therefore, some variance in the ASF per faculty/student is expected, specifically for the College of Engineering (which originally included the architecture program).

- WSU student FTE by college was not available. However, the percentage of full-time students was reported, so the number of part-time students was determined and student FTE estimates were calculated.
- WSU College of Communication was filtered in to the College of Arts and Sciences for faculty, student and space information.
- WSU Architecture program (part of the College of Engineering (51,307 ASF) and College of Veterinary Medicine (601,068 ASF) are included on the campus totals page, but excluded from any particular college breakdown.

Summary Findings

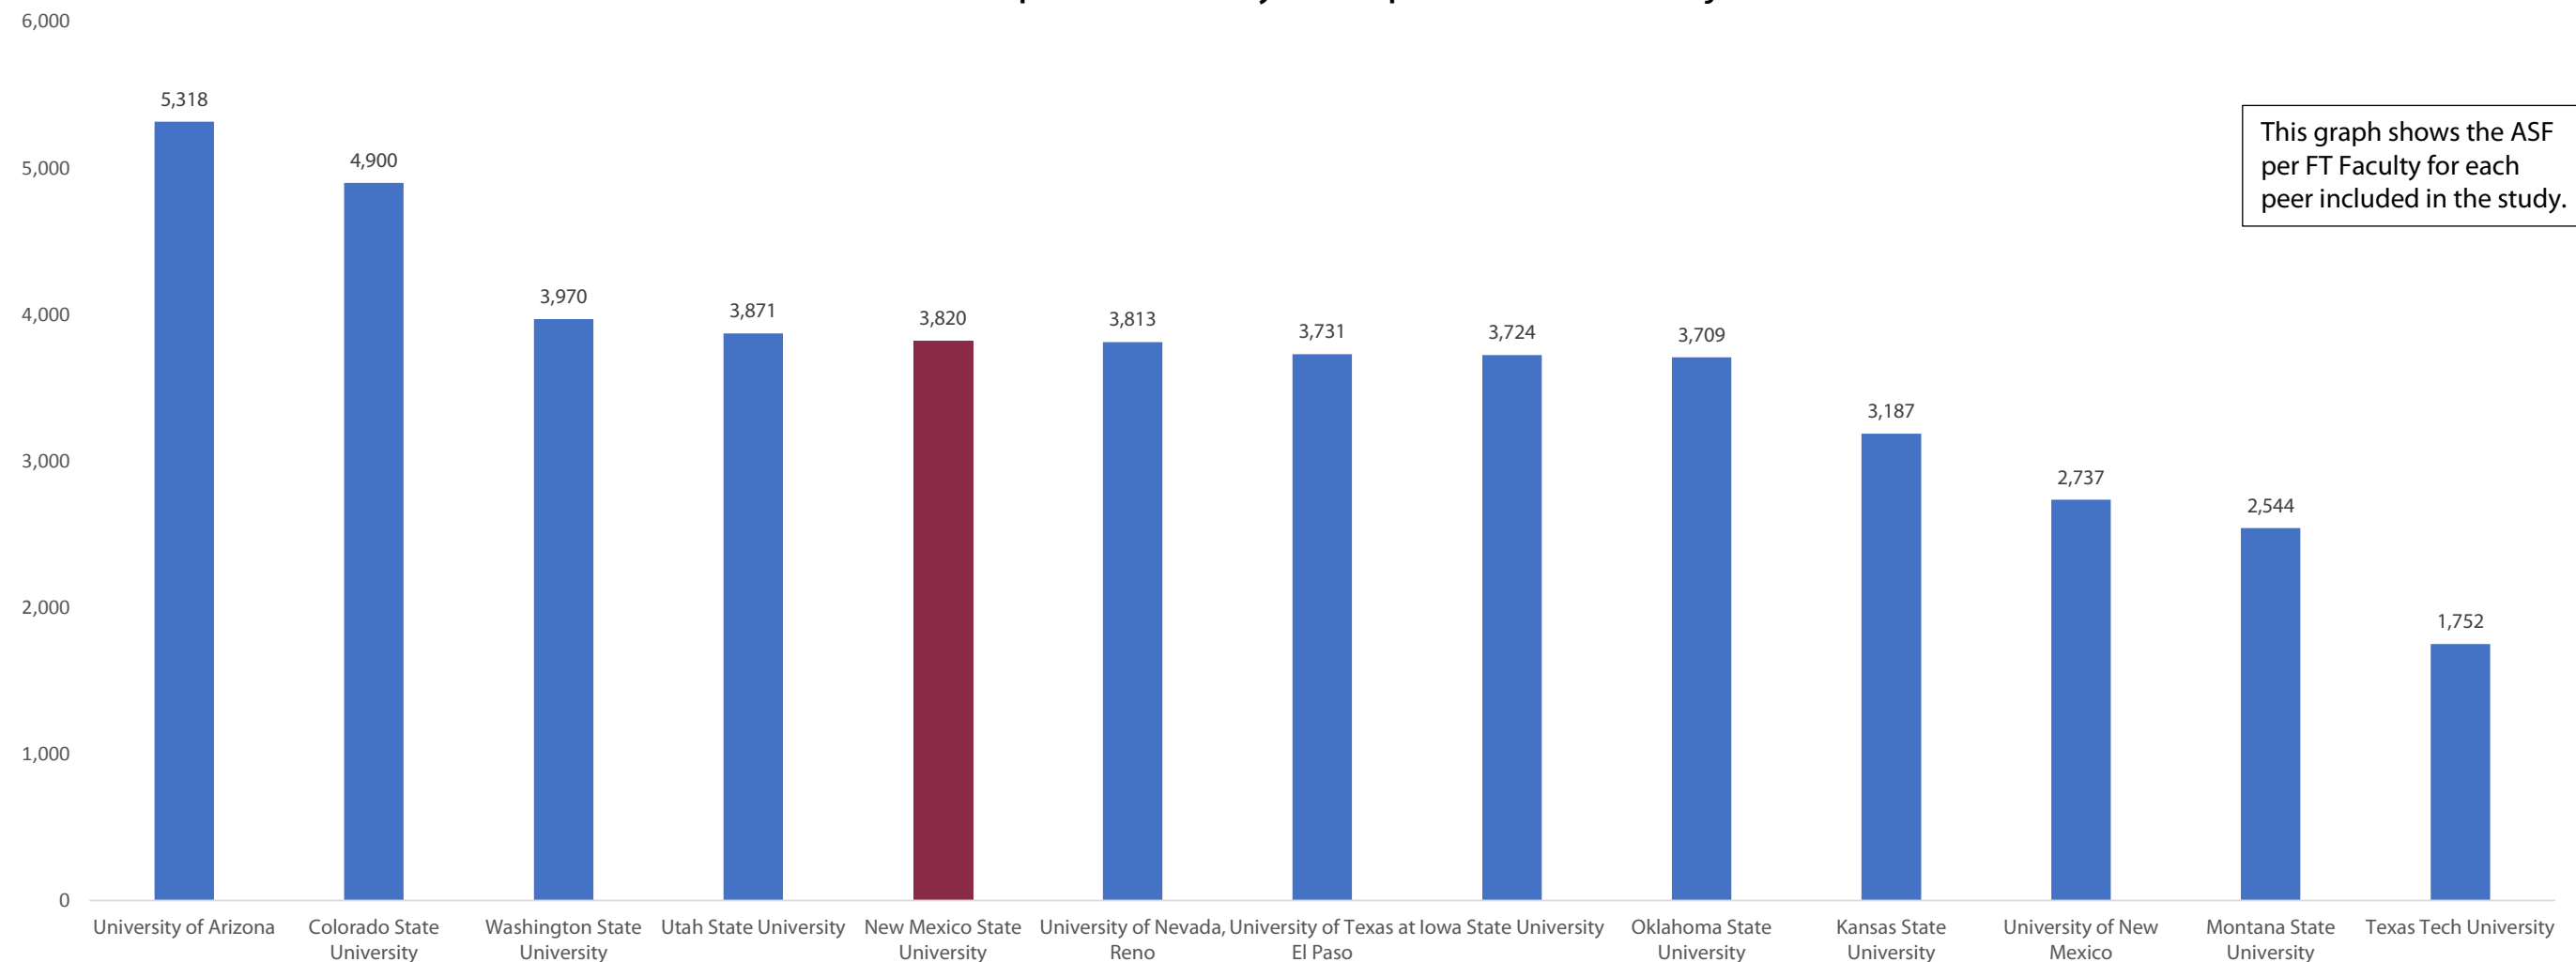

ASF per Student FTE (Campus Total *after Adjustments*)

This graph shows the ASF per Student FTE for each peer included in the study.

University	Excludes	ASF
Colorado State University	Veterinary Medicine	781,803 ASF
University of New Mexico	Architecture and Planning	55,309 ASF
University of New Mexico	Law	108,914 ASF
University of New Mexico	Medicine & Hospital	731,336 ASF

Summary Findings

This page intentionally left blank.

Detailed Findings

4

Detailed Findings

This section contains the following:

- Sample spreadsheet with notes that apply to each subsequent table
- Comparison by University (one page)
- Comparison by College (one page for each college, and for library, G&A, athletics and centrally scheduled spaces when applicable)

Detailed Findings

This table shows a summary of the calculations for ASF per student FTE, broken down by FICM code at each of the 13 schools included in this study.

Student FTE was either provided by the University, or calculated based on the formula detailed earlier in the text when not provided.

ASF per Student FTE is calculated by taking the number in Column C and dividing it by the number in column B.

Total ASF was given by the University. The consultants removed any unclassified or residential space, then applied the filters detailed in Column D to reach the Total ASF After Adjustments listed in Column C.

Column E - Column O are calculations where the consultant used the Total ASF for each FICM Code and divided by the corresponding Student FTE in Column B. Tables showing all hidden calculations can be seen in the Appendix section of this study.

This table shows a summary of the calculations for ASF per FT Faculty, broken down by FICM code at each of the 13 schools included in this study.

The count for FT Faculty was provided by the University.

ASF per FT Faculty is calculated by taking the number in Column C and dividing by the number in Column B.

Column D - Column N are calculations where the consultant used the Total ASF for each FICM Code and divided by the corresponding count of FT Faculty in Column B. Tables showing all hidden calculations can be seen in the Appendix section of this study.

ISU College of Design includes Architecture, Art and Graphic Design. NMSU does not offer an Architecture program. In an attempt to make the data most relevant to NMSU, this College has been excluded from the study. As a result, the data for ISU College of Arts and Sciences is understated because it lacks the Art and Graphic Design departments.

Athletics space for Kansas State is listed under President's office and library space is listed under Provost Office. Due to the nature of the data, the consultants were unable to accurately separate these spaces. Therefore G&A will be significantly overstated and no data is shown on the Library or Athletics' specific pages for Kansas State University.

Comparison to 2006 Data

In 2006, New Mexico State University contracted Paulien and Associates, Inc. for a similar study. Our programming team attempted to compare the NMSU space data from the 2006 study with the NMSU space data from 2015. Unfortunately, we quickly determined that it was impossible to find accurate parallels due to the number of assumptions associated with this type of study.

Instead, we coordinated with the NMSU Department of Institutional Analysis to receive 2006 faculty and student enrollment data that is comparable to the 2015 data.

On the following pages, you will find this comparison. It has been included for foundational purposes only.

Comparison to 2006 Data

2006 vs. 2015 Comparison by University

268 Graduate/Library Science/UNIV Students have been removed from the 2015 reported Student FTE to arrive at the Student FTE After Adjustments number listed above. This was done to maintain consistency throughout the study.

Appendix

Expanded Spreadsheets

The following pages show the detailed analyses for the college by college space data found earlier in the study. Here you will find the individual spaces listed by FICM category that resulted in the ASF per Student FTE and ASF per FT Faculty calculations.

Backup for the Matrix of ASF by Building and College

These pages show the calculations that produced the table displaying the space allocation for each college across each of the buildings on the NMSU main campus.

Comparison by University

This table shows a summary of the calculations for ASF per student FTE, broken down by FICM code at each of the 13 schools included in this study.

Student FTE was either provided by the University, or calculated based on the formula detailed earlier in the text when not provided.

ASF per Student FTE is calculated by taking the number in Column C and dividing it by the number in column B.

Total ASF was given by the University. The consultants removed any unclassified or residential space, then applied the filters detailed in Column D to reach the Total ASF After Adjustments listed in Column C.

Column E - Column O are calculations where the consultant used the Total ASF for each FICM code and divided by the corresponding Student FTE in Column B. Tables showing all hidden calculations can be seen in the Appendix section of this study.

This table shows a summary of the calculations for ASF per FT Faculty, broken down by FICM code at each of the 13 schools included in this study.

The count for FT Faculty was provided by the University.

ASF per FT Faculty is calculated by taking the number in Column C and dividing by the number in Column B.

Column D - Column N are calculations where the consultant used the Total ASF for each FICM Code and divided by the corresponding count of FT Faculty in Column B. Tables showing all hidden calculations can be seen in the Appendix section of this study.

ISU College of Design includes Architecture, Art and Graphic Design. NMSU does not offer an Architecture program. In an attempt to make the data most relevant to NMSU, this College has been excluded from the study. As a result, the data for ISU College of Arts and Sciences is understated because it lacks the Art and Graphic Design departments.

CSU College of Health and Social Services includes spaces for their department of Education. As a result, this data is overstated as compared to peers showing only HSS data.

The ISU College of Human Sciences includes spaces for their department of Education. As a result, this data is overstated as compared to peers showing only HSS data.

TTU School of Nursing is at the Texas Tech University Health Science Center (TTUHSC). Because TTUHSC is not part of the main campus, their nursing program is excluded from these numbers.

The consultants are waiting on additional General and Administrative space information from Texas Tech University. At the time this document was produced, Texas Tech has not yet provided any shared space data. As a result, TTU total campus space is understated.

Athletics space for Kansas State is listed under President's office and library space is listed under Provost Office. Due to the nature of the data, the consultants were unable to accurately separate these spaces. Therefore G&A will be significantly overstated and no data is shown on the Library or Athletics' specific pages.

The consultants are waiting on additional Athletic space information from Texas Tech University. At the time this document was produced, Texas Tech has not yet provided any shared space data. As a result, TTU total campus space is understated.
